

*Solutions for
a cleaner environment...*

Enviro Control Associates (I) Pvt. Ltd.

ENVIRO CONTROL ASSOCIATES (I) PVT. LTD. is one of the leading companies in India in the field of Environmental Engineering focusing on the treatment of Water, Municipal Sewage & Industrial Effluents. The Company also offers Solutions for Municipal Solid Waste Management, Tertiary Treatment with Water Reuse & Bio-gas based Energy Generation. ENVIRO employs a highly-qualified work force over 400 people and has state-of-the-art facilities, latest equipment and an innovation Research & Development activities.

ENVIRO was established in 1979 and has designed, engineered and executed more than 350 plants of Water, Domestic Sewage and Industrial Effluent Treatment. It has provided Consultancy Services to numerous Industries in environmental engineering solutions. ENVIRO's engineering expertise, plant execution knowledge and in-depth treatment process experience helps it provide clients with the highest quality treatment and standards.

ENVIRO's client list is extensive and includes many national and multi-national industries as well as Municipal Corporations, State Water Supply and Sewerage Boards, Refineries, Petrochemical Plants, Pulp and Paper, Chemical, Dyeing and Printing, Textiles, Pharmaceuticals, Sugar and Paints Industries.

ENVIRO has worked with leading consultants like Engineers India Limited, Tata Consulting Engineers Limited, Jacob H & G, MECON Limited, MWH India Private Limited, Projects & Development India Limited, Biothane System International (The Netherlands), Lettinga Associates Foundation (LeAF, The Netherlands), Nippon Jogesuido Sekkei Company Limited (Japan), Mott MacDonald Limited (U.K), to name a few.

ENVIRO offers a range of specialized engineering services

- Water Treatment
- Sewage Treatment
- Industrial Effluent Treatment
- Tertiary Treatment Plants for Waste water Reuse and Recycling
- Bio-Gas based Captive Power Generation Plants
- Operation and Maintenance of Treatment Plants
- Solid and Hazardous Waste Engineering

Water Treatment Plants (WTPs)

Technologies offered by ENVIRO:

- Conventional Clarifloculators
- Reactor Clarifiers
- Sludge Blanket Lamella Clarifiers
- High Rate Rapid Gravity Sand Filters

List of major projects :

- 363 MLD at Baklai, Indore for Indore Municipal Corporation
- 90 MLD each for Surat Municipal Corporation, at Kosad and Simada, Surat
- 150 MLD for Ahmedabad Municipal Corporation, Jaspur
- 470 MLD(Phase I, II, III) for Surat Municipal Corporation, Sarthana, Surat
- 438 MLD(Phase I, II, III) for Surat Municipal Corporation, Katargam, Surat
- 200 MLD at Jahangirabad for Surat Municipal Corporation
- 80 MLD(WTP-III) for Reliance Industries Ltd, Hazira, Surat
- 78 MLD for Surat Municipal Corporation, Dindoli, Surat
- 50 MLD for Vadodara Municipal Corporation, Nimeta
- 40 MLD for Goa Municipal Corporation, Curti- Ponda
- 40 MLD at Podacem for Goa Municipal Corporation
- 26.4 MLD for National Fertilizers, Guna, Madhya Pradesh
- 28.8 MLD for Maharashtra State Electricity Board, Parli
- 23.3 MLD for Nashik Municipal Corporation
- 19.2 MLD for Indian Farmer Fertilizer Co-op Ltd., Phulpur, Uttar Pradesh

40 MLD WTP, Curti-Ponda , PWD, Goa

363 MLD, WTP at Baklai for Indore Municipal Corporation

Sewage Treatment Plants (STPs)

Technologies offered by ENVIRO:

- Advanced A₂O Process for Biological Nutrient Removal (BNR)
- Conventional Activated Sludge Process (CASP)
- Conventional Extended Aeration System (EA)
- Up flow Anaerobic Sludge Bed Reactor (UASB)
- Sequencing Batch Reactor (SBR)
- Integrated Fixed Film Activated Sludge Process (IFAS)
- Moving Bed Biofilm Reactor (MBBR)
- Bio-Tower System (BT)
- Membrane Bioreactor (MBR)
- Advanced Oxidation Ditch

SBR Unit at 40 MLD STP at Kharadi, Pune

List of major projects :

- 245 MLD for Indore Municipal Corporation, Indore
- 180 MLD for Ahmedabad Municipal Corporation, Pirana
- 140 MLD (Phase I, II) for Surat Municipal Corporation, Karanj
- 40 MLD for Bangalore Metropolitan Water Supply & Sewerage Board at Raja Canal, Bengaluru
- 155 MLD (Phase I, II) for Surat Municipal Corporation, Singanpore
- 78 MLD at Kabithkhedi for Indore Municipal Corporation
- 60 MLD for Chennai Metropolitan Water Supply & Sewerage Board
- 134 MLD (Phase I, II) for Surat Municipal Corporation, Kosad
- 130 MLD for Pune Municipal Corporation, Bahiroba
- 115 MLD for Pune Municipal Corporation, Dr. Naidu Hospital, Pune
- 100 MLD for Surat Municipal Corporation, Bamroli
- 45 MLD for GMDA, Mohali, Chandigarh
- 43 MLD for Vadodara Municipal Corporation, Atladra
- 40 MLD for Pune Municipal Corporation, Kharadi

84 MLD Two Stage Biological (UASB + MBBR) STP at Variav for Surat Municipal Corporation

MBBR Unit at 84 MLD STP, Variav for Surat Municipal Corporation

Tertiary Treatment Plants (TTPs)

The exponential growth for water requirement and limited source of fresh water has necessitated re-use of water in industry and in cities (non-drinking purposes). Next to water conservation, water recycling is the only significant "new" source of water that can meet domestic, industrial and environmental demands which are increasing on daily basis.

Tertiary treatment processes include:

CONVENTIONAL PROCESSES

- Deep Bed Multimedia Filter – ENVICO
- Pressure Sand Filters
- Activated Carbon Filters.

MEMBRANE BASED PROCESSES

- Membrane Bioreactor (MBR)
- Ultra Filtration (UF)
- Reverse Osmosis (RO)

List of major projects :

- 57 MLD (40 MLD Net output) India's First Largest Tertiary Sewage Treatment Plant based on UF-RO technology, Bamroli, Surat Municipal Corporation
- 5 MLD for Gujarat Hira Bourse, Surat with Zero Liquid Discharge
- 53 MLD for Surat Municipal Corporation, Gavier
- 13 MLD for Reliance Industries Ltd, Hazira, Surat
- 4800 m³/day for KRIBHCO, Hazira, Surat
- 3240 m³/day for Gujarat State Fertilizer Corporation, Vadodara
- 1200 m³/hr ETP – III plant, Reliance Hazira, Surat
- 480 m³/day for Dept. of Atomic Energy, TIFR, Mumbai

India's First Largest 57 MLD capacity (40 MLD Net output) Tertiary Sewage Treatment Plant based on UF - RO Technology for Surat Municipal Corporation

Ultra Filtration System

Reverse Osmosis System

Industrial Effluent Treatment Plants (ETPs)

Technologies offered by ENVIRO:

- Oil removal system using DAF system, TPI unit, Belt and Disc Oil Skimmer
- Pre-treatment - Coagulation, Flocculation, Sedimentation & Floatation
- Biological Treatment - Extended Aeration Bio-Towers, MBBR, Sequencing Batch Reactor (SBR)
- Sludge thickening, conditioning and dewatering system
- Heavy Metal & Ammonia Removal System
- Membrane Bioreactor (MBR) Technology

Effluent Treatment Plant for IFFCO-Aonla

List of major projects :

- 40 MLD CETP for Gujarat Industrial Development Corporation, Dahej
- 15 MLD CETP for Gujarat Industrial Development Corporation, Sarigam, Vapi
- 62.5 MLD CETP for Palsana Enviro Protection Limited, Palsana, Surat, Gujarat
- 26 (ETP-III) MLD for Reliance Industries Ltd, Hazira, Gujarat
- 21 MLD CETP at Panipat for Haryana Urban Development Authority, Haryana
- 1215 m³/hr for Rama Newsprint & Papers Ltd., Barbodhan, Gujarat
- 1000 m³/day for Gujarat Chemical Port Terminal Co. Ltd, Dahej Gujarat
- 660 m³/hr for Indian Farmers Fertilizers Co-op Ltd., Aonla, UP
- 600 m³/hr (ETP-II) for Reliance, Hazira, Gujarat
- 310 m³/hr for Madras Refineries, Chennai
- 200 m³/hr for Krishak Bharati Co-op Ltd, Hazira, Surat
- 170 m³/hr for BPCL, Manmad, Maharashtra

Bio-Tower Installation for Effluent Treatment Plant, RELIANCE, Hazira

Diffused Aeration based Effluent Treatment Plant including Tertiary Treatment for reuse of waste water for Reliance, Hazira

**245 MLD STP for Indore Municipal Corporation,
World's first Largest Single Stage Biological SBR Based STP**

**180 MLD STP, Pirana, Municipal Corporation, Ahmedabad
India's First Largest STP with Diffused Aeration and PLC -SCADA System**

200 MLD WTP at Sarthana for Surat Municipal Corporation

15 MLD CETP for Gujarat Industrial Development Corporation, Sarigam , Vapi

Waste-to-Energy: Biogas Based Power generation

ENVIRO offers Captive Power Generation plants based on Bio Gas Engine System which can take care of almost all the energy needs of an STP in ideal conditions. Such plants are cost effective and provide clean and renewable energy based on latest technology. ENVIRO designs, builds, operates and maintains such energy generation plants.

List of major Biogas Based Power plants:

- 625 KWe capacity for 60 MLD STP at Koyembedu for CMWSSB, Chennai
- 600 KWe capacity for 80 MLD STP at Variav for SMC, Surat
- 750 KWe capacity for 75 MLD STP at Dindoli for SMC, Surat
- 635 KWe capacity for 100 MLD STP at Bamroli for SMC, Surat

600 KWe Capacity Bio Gas Power Plant at 84 MLD STP, Variav for SMC, Surat

Research & Development (R&D):

ENVIRO is continuously investing in developmental research in the field of Environmental Engineering to promote technologies for cleaner production.

ENVIRO has financially contributed as an industrial partner to Centre of Relevance and Excellence in Environmental Engineering, Surat launched by Technology information, Forecasting and Assessment Council (TIFAC), Department of Science and Technology, Government of India, New Delhi along with Sarvajani College of Engineering & Technology, Surat.

Mission was launched by Dr. A.P.J Abdul Kalam, The Chairman, TIFAC and The Principal Adviser to the Govt. of India on October 4, 2000.

The Centre also offers PG Courses, Consultancy, Testing & Monitoring services as well as Research and Training in different field of Environmental Engineering

An ISO 9001:2008
Reg. No. RQ91/4893
CERTIFIED COMPANY
